Dear Ms. Wilson:

RE: Final Corrective Measures Study for Solid Waste Management Units 12 and 17, Naval Station Mayport; Mayport, Florida

Mr. Greg Brown, P.E., has reviewed the above document dated March 2003 (received March 18, 2003). Mr. Brown has approved the document and his Certification of Approval is attached. We appreciate the opportunity to work with you on this project. If you need anything further, please feel free to contact me at (850) 245-8999.

Sincerely,

James H. Cason, P.G.  
Remedial Project Manager

## CERTIFICATION OF APPROVAL

RE: Corrective Measures Study for SWMU Nos. 12 (Neutralization Basin) and 17 (Carbonaceous Fuel Boiler Area), Naval Station Mayport, Florida.

Naval Station Mayport is undergoing investigation and corrective actions under a Resource Conservation and Recovery Act, Hazardous and Solid Waste Amendment (RCRA/HSWA) permit. The corrective measures described in the subject are intended to be final recommended remedies subject to periodic five-year reviews for effectiveness and protectiveness.

In my professional judgment, the engineering features described in the engineering document Corrective Measures Study for SWMU Nos. 12 (Neutralization Basin) and 17 (Carbonaceous Fuel Boiler Area), Naval Station Mayport, Florida, dated March 2003, (received March 18, 2003) provide reasonable assurance of reducing exposure to applicable pollutants that may be potentially harmful or injurious to human health or welfare and animal or plant life in accordance with state requirements described in Chapter 376, F.S. Mr. Michael F. Albert, P.E., Florida P.E. License No. 55239, is the engineer of record for this engineering document.

I have not evaluated and do not certify aspects of this plan that are outside the limits of my review responsibilities and outside my area of expertise (including but not limited to electrical, mechanical, and structural features). I personally completed this review.

  
Gregory M. Brown, P.E.
