RE: Sampling and Analysis Plan, SWMU 10 - Hazardous Waste Storage Area, and
SWMU 11 - Fuel Spill Area, Naval Station Mayport, Florida

Dear Ms. Wilson:

I have reviewed the above document dated November 16, 2006 (received November 17, 2006). We also discussed the investigation at our Partnering meeting in January. The document proposes to determine if the groundwater at SWMU 10 is contaminated and to assess if the soil and groundwater are contaminated at SWMU 11. Additional soil assessment and the installation of 2 additional monitoring wells, one at each SWMU, will be accomplished. The document is acceptable.

Thank you for the opportunity to review this document. If you require further clarification or other assistance, please feel free to contact me at 850-245-8999.

Sincerely,

James H. Cason, P.G.
Remedial Program Manager
