RE: Interim Measures Work Plan, Source Removal at SWMUs 6, 7, 11, and 51, Naval Station MAYPORT, Mayport, Florida (CH2M Hill Constructors, Inc., September 2007)

Dear Mr. Hayworth:

I have reviewed the subject document dated September 2007 (received on September 21, 2007). The purpose of this Interim Measures Work Plan (IMWP) was to outline the procedures to be used to perform light non-aqueous phase liquid (LNAPL) and petroleum product impacted soil removal at Solid Waste Management Units (SWMUs) 6, 7, 11, and 51 located at Naval Station Mayport. This IMWP is adequate for its intent and purpose. Also, it is my understanding that this work has already been completed and that this approval letter is for documenting purposes only.

Thank you for the opportunity to review this document. If you require additional clarification or other assistance please feel free to contact me at 850/245-8999.

Sincerely,

John Winters, P.G.
Remedial Project Manager
