**RE: Draft Final Corrective Measures Study, Revision 2, Solid Waste Management Units 47, 53, and 55, Naval Station Mayport, USEPA ID #FL9 170 024 260, Mayport, Florida (Tetra Tech, August 27, 2014)**

Dear Mr. Hayworth:

I have reviewed the subject document dated August 27, 2014. I received this document on August 28, 2014. This document was completed under Contract Task Order Number 0033.

The report states that *"A Corrective Measures Study (CMS) was conducted for Solid Waste Management Units (SWMUs) 47, 53, and 55 at Naval Station (NAVSTA) Mayport, in Jacksonville, Florida... This report presents the results of the CMS..."*

Based on my review of the document, the Department is in concurrence with the corrective measures alternatives chosen for each of the SWMUs. However, the Department has the following comments:

1. Page 1-10, Third Paragraph: Please remove this paragraph. The poor quality groundwater discussion is not needed in this CMS since the groundwater analytical results are being compared to the Department's default groundwater cleanup target levels.
2. Page 2-29, Section 2.12.2 Recommendation, first sentence: This sentence should also address SWMU 53 (not just SWMU 47). Please revise the sentence.
3. Page 2-29, Section 2.13.1 Summary of the Groundwater Corrective Measures and Rationale, First Sentence: Please substitute "SWMUs 47 and 53" for "the site" at the end of this sentence.

Thank you for the opportunity to review this document. If you require additional clarification or other assistance, please feel free to contact me at 850/245-8999.

Sincerely,

John Winters, P.G.  
Remedial Project Manager
