October 15, 1992

Mr. John Karlyk  
Southern Division  
Naval Facilities Engineering Command  
2155 Eagle Dr., P.O. Box 10068  
Charleston, S.C., 29411-0068

Dear Mr. Karlyk:

Enclosed is a copy of the proposal "Biodegradation as a remediation alternative, NAS, Memphis, Tennessee" that has been revised in accordance with your letter of 7 October, 1992. Specifically, the time period of the study has been changed to four months, and sampling the observation wells has been added to the scope of work. The budget has been revised to reflect the increased scope of work.

We look forward to beginning the project on December 1, 1992.

Sincerely,

Francis H. Chapelle  
Hydrologist
