Subject: Corrective Measures Study (CMS) Report, SWMU 2 – Southside Landfill,
Naval Support Activity Mid-South, Millington, TN

Dear Mr. Reed,

The Environmental Protection Agency (EPA) has reviewed the subject document. EPA agrees that the recommended remedy, monitored natural attenuation and institutional controls, is the optimum remedial alternative considering the groundwater geochemistry and cost-to-benefit ratios. This letter serves as approval for the CMS report.

Please contact me at 404-562-8513 if you have any questions.

Sincerely,

Jennifer Tufts
Remedial Project Manager
