RE: Final Site Investigation Report for Study Area 39, Naval
Training Center Orlando, Florida

Dear Mr. Hansel:

I have completed the review of the Final Site Investigation Report for Study Area 39, Naval Training Center, Orlando, dated August 11, 2000 (received August 14, 2000), prepared and submitted by Tetra Tech NUS, Inc. The document is suitable for its intended use and is approved as final. A Draft Work Plan to inject vegetable oil into the aquifer to enhance biodegradation is under review. Also, a Work Plan has been approved to clean up the site from industrial land use to residential land use.

If I can be of any further assistance with this matter, please contact me at (850)488-3693.

Sincerely,

David P. Grabka
Remedial Project Manager
