SUBJ: Technical Memorandum, Soil Investigation Summary, Study Area 36, Orlando Naval Training Center, Orlando, Florida

Dear Ms. Nwokike:

The United States Environmental Protection Agency (EPA) has completed its review of the subject document.

The Memorandum describes the confirmatory soil sampling which indicates that the soil contamination present at Study Area 36 is below EPA action levels. Based upon these sampling results, Study Area 36 is now redefined to only include that area where the contaminated groundwater plume exists.

If you have any questions, please call me at (404) 562-8544.

Sincerely,

Gregory D. Fraley  
Senior RPM
