LETTER REGARDING REGULATORY REVIEW AND COMMENTS ON DRAFT SOURCE  
REMOVAL REPORT FOR STUDY AREA 18 NTC ORLANDO FL  
11/14/2002  
FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

November 14, 2002  
OFFICIAL CORRESPONDENCE

Commanding Officer  
attn: Mrs. Barbara Nwokike, Code ES333  
Southern Division  
Naval Facilities Engineering Command  
Post Office Box 190010  
North Charleston, SC 29419-9010

Dear Mrs. Nwokike:

I have completed my review of the Draft Source Removal Report for Study Area 18, McCoy Annex, Orlando Naval Training Center, dated October 25, 2002 (received via e-mail on October 27, 2002), prepared and submitted by CH2M Hill Constructors, Inc. While the overall report is adequate for its intent, I have the following comments that should be addressed in the final report:

- (1) Please provide scaled drawings of each of the four excavations that were conducted at Study Area 18. While Figure 2 shows the entire site and the four small excavation areas, the size of the excavations as shown in the figure is too small to determine the dimensions of the excavations to make volume calculations.
- (2) On Figure 2, the symbol for a soil sample where no parameter exceeded residential SCTLs and the symbol for a soil sample where at least one parameter exceeded residential SCTLs could not be differentiated.
- (3) In Section 2.2, it is stated that the contaminated soil was transported to the Orange County Landfill for proper disposal. I assume that the landfill required laboratory analyticals of the soil prior to accepting the contaminated soil. Please provide these laboratory analyticals or other documentation that was provided to the landfill that assured the county that it was accepting approvable wastes.

Please make the editorial changes mentioned above in the final report.

This electronic message is being sent in lieu of regular mail. If you have any questions concerning this review, please contact me at (850)245-8997.

Sincerely,

David P. Grabka, P.G.
