RE: Contamination Assessment Report Addendum, Building 7211,
McCoy Annex, NTC Orlando
FDEP #488840202

Dear Mr. Ugolini:

I have completed the technical review of the Contamination Assessment Report (CAR) Addendum dated August 29, 1996 (received September 5, 1996) submitted for Building 7211. Due to the reduction of contaminant concentrations from overdevelopment of monitoring well MW-1 to monitoring only levels, I agree that another attempt at overdevelopment could be beneficial, especially since this could possibly decrease contamination levels to allow transfer of the property to the City of Orlando.

If I can be of any further assistance with this matter, please contact me at (904) 921-9989.

Sincerely,

John W. Mitchell
Remedial Project Manager
