RE: Site Assessment Report, Building 7107, McCoy Annex,
Naval Training Center, Orlando, Florida
FDEP #488840202

Dear Mr. Ugolini:

I have completed the technical review of the Site Assessment Report (SAR) dated January 1998 (received April 13, 1998) submitted for Building 7107. I agree with the conclusions and recommendations to remove the small amount of excessively contaminated soil and resampling of the monitoring wells. Should slight exceedence of Groundwater Target Cleanup Levels (GTCL) still be present, I suggest overdeveloping the well and resampling prior to submittal of the SAR Addendum.

If I can be of any further assistance with this matter, please contact me at (904) 921-9989.

Sincerely,

John W. Mitchell
Remedial Project Manager
