TELEPHONE MEMORANDUM

PROJECT NO.: 07593-01

DATE: September 11, 1995

CLIENT: SOUTHDIV

PROJECT DESCRIPTION: CSS Panama City RFI Report

BETWEEN: Tracey Kauffman of ABB-ES; Arlington VA

AND: Craig Benedick (EPA)

SUBJECT: Status of Unresolved Issues Pertaining to RFI Comments

I gave Craig an update on the two remaining issues (i.e., arsenic and 10^{-6}). I told him that we are planning a meeting on October 11. He indicated that he would not be allowed to travel so he would have conference him in.

Craig indicated that he spoke with Bart Reddie (EPA RPM for Cecil Field) pertaining to the 10-6 issue. He indicated that FDEP has bent on this issue in the past. If we need specifics we can find out later.

We discussed rescheduling the due date for the final report. I indicated that we should have a pretty good idea of when we could deliver the report by the October 11 meeting. He indicated that this was fine.

Craig also indicated that there is a potential that he may be furloughed in the near future. I asked him for how long, he said that he had no idea. He will keep us posted.
