Subject: FW: NSA-PC HSWA permit mod status

NSWC PANAMA CITY

5090.3a

I talked to John this morning. I told him that Tetra Tech will start working on the HSWA permit mod/extension package as soon as we have a remedy in place for SWMU 2. This should happen sometime in October and the permit mod application will be submitted sometime in December.

John said the sooner the better because his last day at FDEP is January 31st. He also reminded me that the public comment period can be done at the same time for the SWMU 2 SOB and the HSWA permit mod/extension as long as he has the complete permit application package in his hands.

Bill/Tom,

John left me a voice mail this morning asking for the status of our HSWA Permit mod/extension?

Please advise.

Arturo

Tracie,

Panama City needs to submit a letter saying that they want to get the ten years on their permit that is allowed by 62-730 because of rule change after their permit was issued. We will work on getting the permit mod. to allow them another five years and add their SOB in the permit at the same time. I talked to Arturo, about this because he has paid his money for this to happen.

Hello all,

Below you will find a word document attached with instructions on how to complete a permit mod. I think we have already figured this process out, but I am providing it to you anyway.

See attached suggested modifications. For modifications, does the mod always just become effective after the notice period or do we occasionally issue a Final Permit Mod?

Eric Nuzie reminded me of a task I promised << File: How to Modify a RCRA Permit.doc >> to do at the Industry workshop, namely, prepare instructions on RCRA permit mods. Here is a draft. Please comment.
