RE: Final Sampling Work Plan, Sites 98, 325, and AOC 2-South Dock, Naval Support Activity Panama City, USEPA ID# FL8 170 023 792, Facility ID # 03-8518667, Panama City Beach, Florida (NAVFAC SE, April 2012)

Dear Mr. Schoolfield:

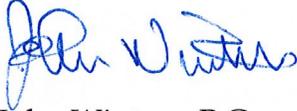

I have reviewed the subject document which is dated April 2012 and was received on May 2, 2012. The Purpose section of the report states *"The overall purpose of this SI Work Plan is to facilitate environmental sampling to gather data for assessment of three separate sites at NSA Panama City. The intent of the work plan is to describe sampling objectives, sample locations, collection methodology, field measurements and laboratory analytical methods to be used. Each sampling effort has site specific objectives and is tailored to fill data gaps specific for the subject site."*

Previous comments to the Draft-Final Work Plan have been addressed by the Navy in this Final Sampling Work Plan. Based on this new Sampling Work Plan, and our recent discussions pertaining to this sampling plan, I am in concurrence with the proposed field activities and sampling objectives for these sites.

Final Sampling Work Plan
Sites 98, 325, and AOC 2-South Dock, NSA Panama City
