**TELEPHONE MEMORANDUM**

**PROJECT NO.:** 07593-01

**DATE:** October 12, 1995

**CLIENT:** SOUTHNAVFACENCOM

**PROJECT DESCRIPTION:** RFI - CSS Panama City

**BETWEEN:** Lissa Miller

**AND:** John Mitchell (FDEP)

**SUBJECT:** FDEP position on "institutional controls"

I spoke with John Mitchell later in the afternoon while in the Tallahassee office. FDEP had given him their position on institutional controls.

Institutional controls for a site means a fence around the site/sample site with an appropriate sign. A fence around the base is not adequate. The fence and sign would make the area unusable for future use.

FDEP will accept one of three recommendations for AOC 2 and SWMU 5:

1. No Further Action with institutional control
2. Focused CMS (i.e., single alternative evaluation)
3. Quick removal action: remove problem constituent with a shovel, conduct single confirmatory sample for that constituent, confirm removal, close site.
