Subject: Approval Letter for SWMU 9 Removal

SWMU9I-1.WPD

ATT24052.txt

B.K. -

Attached is the approval letter for the SWMU 9 Interim Measures Work Plan. The original will follow via regular mail. I have already spoken with Paul Semmes and indicated my verbal approval which he said was good enough for him to get started. However, I did tell him to make sure that he got David Grabka's approval as well before mobilizing. I don't know if you've heard yet but Olga Perry in our office has taken over CSS from me. I briefed her today and gave her the pertinent information needed to come up to speed on what's going on at CSS. Her telephone number is (404) 562-8534. The last I heard our permit writers were just about to the point where they were going to send out the preliminary draft permit to the facility and to Steve Beverly for a 30 day informal review and comment. I assume that the permit is probably on its concurrence routing prior to being mailed, but I told Olga to follow-up to make sure it gets sent out.

Craig
