Charleston, S.C. 29411-0068

Dear Sir:

This is in reference to the letter dated July 11, 1986 from Mr. DR. Spell concerning the corrective action plan being implemented at the Navy Public Works Center, Pensacola, Florida.

The proposals outlined in the letter are acceptable to the Department. The monitoring of well #GM-84 should be continued until recovery is initiated. The total organic compounds measured during this period will show trends that can be used during the recovery operation.

If you have any questions, please call Bill Kellenberger at (904)436-8363.

Sincerely,

Thomas W. Moody, P.E.
Special Programs Supervisor
