Mr. Patrick Tobin  
Deputy Regional Administrator  
Environmental Protection Agency  
Region IV  
345 Courtland Street, NE  
Atlanta, GA 30365

Dear Mr. Tobin:

I enjoyed meeting you to discuss our shared interest in the achievement of environmental compliance by Navy facilities. I have a sincere desire that we accomplish this mutual interest in the spirit of cooperation and teamwork.

While we talked, our respective staffs were engaged in a cooperative effort to develop an approach to accelerated remedial activities for the Naval facilities in our area which are on the National Priority List. Last week we submitted two of these activities' site management plans, created in that spirit, which significantly reduces the time needed to achieve site remedial activities. A considerable effort on the part of both our staffs and that of the state regulators will be required to maintain the proposed schedules.

The Navy is committed to providing leadership in achieving and maintaining environmental compliance throughout the Navy. At any time you feel it helpful to discuss any issue with me please do not hesitate to call. If you are in our area a visit to our command would be welcome.

Sincerely,

**8. L. RUNBERG**  
Captain, CEC, U.S. Navy  
Commanding Officer
