Atlanta, Georgia 30365

N00204.AR.000465  
NAS PENSACOLA  
5090.3a

Dear Ms. Drew:

In response to EPA's letter of 6 October 1992, and FDER's letter of 9 October 1992, the Final 1993 Yearly Site Management Plan (SMP) for the Naval Air Station (NAS) Pensacola, Florida is submitted after incorporating those EPA primary comments, and has been enclosed for your review and approval as enclosure (1).

Enclosure (2) is the Navy's responses to your comments. In the 1993 SMP, you will find that most of your secondary comments have been incorporated, and changes to the format have occurred in order to minimize the amount of wording, and to establish a general format for NAS Pensacola's SMP which will be similar to other National Priority List (NPL) Naval activity SMPs (i.e., NAS Cecil Field, NAS Jacksonville, and MCLB Albany).

Also, in the near future we will be sending for your review an informal 1993 Expedited Site Schedule for NAS Pensacola, Florida, with reduced submittal review times.

If you should have any questions regarding the enclosures, please contact Ms. Linda A. Martin, Code 1851, at (803) 743-0574.

Sincerely,

J. B. MALONE, P.E.  
Head, Installation Branch  
Restoration 1 Branch
