RE: Draft *DQOs* and Ecological Indicators; Pensacola Naval **Air Station, Pensacola, Fla:**
Contract N62467-89-D-0318, **CTO-036**

Dear Ms. Martin:

In accordance with an agreement made during the scoping meeting for Operable Units 15, 16, and 17, EnSafe/Allen & Hoshall is pleased to submit a copy of the Draft *DQOs* and Ecological Indicators to be a part of the Remedial Investigation work plan. Notice the rational is only for Pensacola Bay. Since Bayou Grande is so similar to the Bay, the same principles will apply. The rational for the wetlands will follow a stepped approach focusing on which wetlands can be deleted from further investigation by evaluating their resources. This stepped approach is being developed to reduce cost to the Navy, develop reference wetlands, and encourage all work to be done during the least number of field events.

If you have any questions or I may be of further assistance, please do not hesitate to call me personally.

Sincerely,

Henry H. Beiro
EnSafe/Allen & Hoshall
Task Order Manager
