Re: Technical Memo review; transmittal of EPA's final Field  
Investigation Report  
Naval Air Station (NAS) Pensacola, Florida

Dear Ms. Martin:

EPA has completed its review of the above-referenced technical memo, which was received in this office on November 23, 1992. Enclosed are our comments. Your consideration of these comments in preparing the draft RI/FS Work Plan for Operable Unit 17: Pensacola Bay Area, will facilitate the Agency's review of that forthcoming document. Also enclosed for your information and files is a copy of EPA's final report on the field investigation which was conducted by our Environmental Services Division (ESD) at NAS Pensacola the week of July 13, 1992. It is our hope that the advance efforts of the Parties will improve the quality of, and reduce the amount of time required to achieve, the final approved work plan.

Please contact me at 404/347-3016 should you have any questions or if I can be of additional assistance.

Sincerely yours,,

Allison W. Drew, RPM  
Department of Defense Remedial Section
