QUARTERLY PROGRESS REPORT

FIRST QUARTER, 1993

1 OCTOBER 1992 - 30 DECEMBER 1992

1. INTRODUCTION

1.1 Background : A Federal Facilities Agreement (FFA) was signed by the US. Navy, the Environmental Protection Agency (EPA), and the State of Florida via the Florida Department of Environmental Regulation on October 23, 1990. The FFA requires the Navy to submit to the other FFA parties on a quarterly basis a Quarterly Progress Report (QPR).

1.2 Scope : As provided for in FFA Part XII, Reporting, the QPR identifies and **briefly describes** the actions which the Navy has taken to implement FFA requirements in the previous quarter and those actions scheduled in the upcoming quarter. The activity narratives should **include** a statement on the manner and extent to which the Navy is meeting the schedules provided by the FFA in its **Site Management Plan (SMP)** and in the approved work plans. In addition to activity descriptions, any problems that caused delays or anticipated problems that might cause delays are identified and the actions the Navy **has** or plans to take to manage the delays are discussed.

1.3 Schedule : The Navy is to transmit the QPR within 30 days of the end of the previous quarter.
