Dear Ms. Martin:

Thank you for notifying us of the initiation of trenching activities at Sites 1 and 11, NAS Pensacola. As Mr. Jorge Caspary has already discussed with you, test trenches should provide a better assessment of disposal methods used in the landfills as well as minimizing the potential for drilling through buried material. If requested, we will review the resulting information as soon as possible to help keep the project on schedule.

If I can be of any further assistance with this matter, please contact me at 904/488-0190.

Sincerely,

Eric S. Nuzie
