Re: FY94 Site Management Plan (SMP);
NAS Pensacola, Florida
EPA Site ID No.: FL 9170024567

Dear Mr. Hill:

The Environmental Protection Agency (EPA) has completed its review of the Revised Draft FY94 Site Management Plan (SMP) for the Naval Air Station (NAS) Pensacola, which was received in this office on December 6, 1993. The document is acceptable for its purposes, and EPA therefore approves the FY94 SMP. It is also EPA's understanding that the Parties have agreed to meet during the week of January 3, 1994 to readjust the SMP schedules. Such adjustments should be particularly critical, given the information which is just now becoming available regarding the facility's plans for completing base realignment and closure (BRAC) activities at NAS Pensacola.

Please contact me at (404) 347-3016 if you have any questions regarding the above issues or if I can be of further assistance.

Sincerely Yours,

Allison W. Drew
