Subj: SITE 1 WETLAND SAMPLING

Dear Ms. Drew:

This letter provides notification of fieldwork at Naval Air Station (NAS) Pensacola. As described in the Technical Memorandum of June 9, 1994, enclosure (1), wetland sampling will be accomplished to complete the remedial investigation (RI) for Site 1 and perform additional groundwater sampling to tie previous sampling to current sampling.

The sampling of potential receptor wetlands in conjunction with the RI for terrestrial sites has been discussed and agreed upon during earlier Tier I Pensacola Partnering Team meetings. The sampling for Site 1 was an agenda item during the June 2 Partnering meeting, however, time constraints did not allow discussion of this topic. To maintain compliance with the Site Management Plan schedule, fieldwork must begin by June 27, 1994.

If you should have any questions, please contact Bill Hill (Code 1851) or Bill Gates (Code 18510), at (803) 743-0324 or (803) 743-0360 respectively.

Sincerely,

WILLIAM J. HILL
Environmental Engineer
Installation Restoration I Branch
