Dear Mr. Hill:

Department personnel have completed the technical review of the Draft 1995 Site Management Plan, NAS Pensacola. I have enclosed a memorandum addressed to me from Mr. David M. Clowes, our NAS Pensacola Remedial Project Manager. In the memorandum, Mr. Clowes states that the final version should incorporate the second 30 day extension (approved by us but pending formal EPA approval) for submission of the Category 1 Draft Final Remedial Investigation Report. Otherwise, he has determined that it is satisfactory for its purpose.

If I can be of any further assistance, please contact me at 904/488-3935..

Sincerely,

Eric S. Nuzie
Federal Facilities Coordinator

Technical Review Section

DATE: September 30, 1994

SUBJECT: Graft 1995 Yearly Site Management Plan, Naval Air
Station Pensacola.

I have reviewed the above stated document dated September 1, 1994 (received September 2, 1994). The document appears acceptable in its present format. However, the final version of the SMP should be amended to reflect the second 30 day extension (pending approval) for submission of the Category 1 Draft Final Remedial Investigation Report.
