Re: Final Proposed Plan,  
Site 39, NAS Pensacola  
Contract # N62467-89-D-0318/083

~~Dear~~ Mr. Clowes:

On behalf of the Navy, EnSafe/Allen & Hoshall is pleased to submit two copies of the **Final Proposed Plan** for Site 39 at the Naval Air Station Pensacola in Pensacola, Florida.

If you should have any questions or need any additional information regarding the plan, please do not hesitate to call me.

Sincerely,

EnSafe/Allen & Hoshall

Allison L. Dennen  
Task Order Manager

**FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION**  
**RESPONSE TO X**  
**DRAFT PROPOSED PLAN, SITE 39 (OAKGROVE GR )**  
**A AIR STATION A**

**COMMENT 1:**

**Section 4.0. Page 7 should be rewritten.**

With the inclusion of the **inhalation** pathway **in the calculation of Remedial Goal Options (RGOs)/Cleanup Levels**, FDEP utilizes **1E-6 for carcinogenic Chemicals of Concern (COCs)** and **1.0 hazard quotient for non-carcinogenic COCs as default criteria**. However, if the contamination level of a Chemical of **Potential Concern (COPC)** is **below the ARAR (MCL, PRG, etc.)** then the **COPC** is not considered a COC, even if the RGO is exceeded. Therefore, since the level of arsenic detected in groundwater is not above the **Florida Primary Standard (Chapters 62-520 and 62-550, F.A.C.)**, the RGO of **1.3E-4** is **not** applicable.

**RESPONSE:**

**As agreed during the Tier 1 Partnering Team conference call on May 2, 1995, the following sentence will be added to the Proposed Plan. "The state of Florida does not consider arsenic to be a COC because it does not exceed the Florida Primary Drinking Water Standard."**

**COMMENT 2:**

**Section 7.0, Page 10**

**My** title is Remedial Project Manager (Mr. Eric Nuzie **is** the **Federal** Facilities Coordinator).

**RESPONSE:**

**The title has been deleted.**
