RE: Final Sampling and Analysis Plan for Site 36 Industrial
Wastewater Treatment Plant Sewer Line, NAS Pensacola

Dear Mr. Hill:

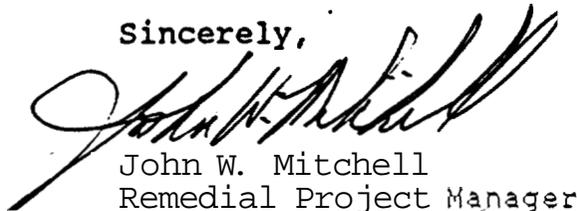

I have completed the technical review of the above referenced document dated October 30, 1995 (received November 1, 1995). The document cannot be accepted as final until the following changes are made.

It was agreed in the response to comments that the updated Florida Soil Cleanup Goals (FSCG) would be utilized. In Appendix A, the data is correctly compared to the April 5, 1995 FSCG. However, throughout the text of the document, reference is to the July 1994 FSCG. This needs to be corrected with the proper dated version of the FSCG included on the following pages of the document: Page vi - September 29, 1995; Page 3 - September 29, 1995; and Page 6 - April 5, 1995.

These changes can be submitted as errata pages. Once received, an approval letter will be submitted.

If I can be of any further assistance with this matter, please contact me at (904) 921-9989.

Sincerely,

John W. Mitchell
Remedial Project Manager
