SUBJ: Concurrence with Final Sampling and Analysis Plan (SAP) for Site 36 (IWTP Sewer Line), Naval Air Station (NAS) Pensacola, Florida, EPA Site ID No.: FL9170024567.

Dear Mr. Hill:

The U.S. Environmental Protection Agency (EPA), has reviewed the above referenced Workplan dated October 30, 1995, concurs with the Navy's methodology, and accepts this document as final.

Additionally, sampling location revisions discussed and agreed to during our Nov 1 & 2, 1995, meeting does not require a revision to the Final Site 36 SAP. However, these revisions should be documented in the Draft RI/Site Characterization Report(s) as a change to the approved SAP.

If you have any questions please contact me (404) 347-3555, extension 6462.

Sincerely,

Jay V. Bassett,
Remedial Project Manager,
Federal Facilities Branch
