RE: Naval Air Station Pensacola, Pensacola, Florida .

Dear **Mr. Bassett**:

I would like to thank you for continuing to provide site documents to **NOAA**. Due **to** the federal budget problems we have not been able to review and comment on many of the site documents for DOD. However, we have **prioritized** our site file in order to be able to provide input for selected sites at NAS Pensacola. We are especially interested in providing **input** on the scoping of work plans for the remedial investigations for Site 41 (NAS Pensacola Wetlands), Site **42** (Pensacola Bay), and Site 40 (Bayou Grande). These areas are of interest to NOAA because they contain NOAA trust resources, some of which are striped mullet, saltmarsh topminnow, blue crab, spot, Atlantic croaker, bay anchovy, sea turtles, and Atlantic bottlenose dolphin. Please let **us know** your schedule and we would be happy to meet with you and NAS Pensacola representatives. I may be reached at extension **6372**.

Sincerely,

Denise M. Klimas
Coastal Resource Coordinator, Region IV
