EPA Site ID No.: FL9170024567

Dear Mr. Hill:

The U. S. Environmental Protection Agency (EPA), has completed the review of the above subject document, dated January 17, 1997. The analytical results identify contaminants which exceed the (groundwater) secondary maximum contaminant levels, however, these results appear to be consistent throughout NAS Pensacola. The Agency concurs with the no further action recommendation.

If you have any questions please contact me at (404) 562-8538.

Sincerely,
