RE: Final Focused Feasibility Study for Site 1, NAS Pensacola

Dear Mr. Hill:

I have completed the technical review of the errata pages dated May 23, 1997 (received May 27, 1997) for the above referenced document dated November 8, 1996 (received November 12, 1996). With the requested correction completed, the document is approved as final per the attached memorandum and certification by Greg Brown, P.E.

If I can be of any further assistance with this matter, please contact me at (904) 921-9989.

Sincerely,

John W. Mitchell
Remedial Project Manager

CERTIFICATION OF APPROVAL

RE: Final Focused Feasibility Study; NAS Pensacola, Site 1;
Pensacola, Florida.

Site 1 consists of a former military landfill undergoing investigation and remedial action under the federal Comprehensive Environmental Response, Compensation, and Liability Act, as amended. The subject engineering document develops, evaluates and compares remedial action alternatives for Site 1. Mr. James N. Speakman, P.E. (Florida PE 41460) is the engineer of record.

In my professional judgment, the engineering features described in the engineering document, Final Focused Feasibility Study: NAS Pensacola, Site 1: Pensacola, Florida, provide reasonable assurance of reducing applicable pollutants below quantities which may be potentially harmful or injurious to human health or welfare and animal or plant life in accordance with state criteria and authorized by Chapter 376, F.S.

I have not evaluated and do not certify aspects of this plan that are outside the limits of my review responsibilities and outside my area of technical expertise (including but not limited to electrical, mechanical, and structural features). I personally completed this review.
