FIRST QUARTER 1998  
1 OCTOBER - 1 DECEMBER 1997

## 1.0 INTRODUCTION

1.1 Background: A Federal Facilities Agreement (FFA) was signed by the US Navy, the US Environmental Protection Agency (EPA), and the State of Florida via the Florida Department of Environmental Protection (FDEP) on 23 October 1990. The FFA requires the Navy to submit to the other FFA parties on a quarterly basis a Quarterly Progress Report (QPR).

1.2 Scope: As provided for in FFA Part XII, Reporting, the QPR identifies and briefly describes the actions which the Navy has taken to implement FFA requirements in the previous quarter and those actions scheduled in the upcoming quarter. The activity narratives should include a statement on the manner and extent to which the Navy is meeting the schedules provided by the FFA in its Site Management Plan (SMP) and in the approved work plans. In addition to activity descriptions, any problems that caused delays or anticipated problems that might cause delays are identified and the actions the Navy has or plans to take to manage the delays are discussed.

1.3 Schedule: The Navy is to transmit the QPR within 30 days of the end of the previous quarter.

## 5.0 PROGRESS

The lack of a resolution on the issue of **how** to restrict land use to satisfy EPA and FDEP's enforceability needs and to comply with the Navy's legal authority to restrict land use has resulted in delays in completing a ROD. All parties are working to resolve this issue. Overall satisfactory progress has been made in meeting the requirements and time schedules of the FFA and work plans.
