SUBJ: Record of Decision - Operable Unit 17  
NAS Pensacola NPL Site  
Pensacola, Florida

Dear Sir:

The U.S. Environmental Protection Agency (EPA) Region 4 has reviewed the above subject decision document and concurs with the selected remedy for the Remedial Action at Site 42. This remedy is supported by the previously completed Remedial Investigation and Baseline Risk Assessment Reports.

The selected remedial alternative is no further action. This involves taking no further remedial actions at the site and leaving the environmental media as they currently exist. This remedial action is protective of human health and the environment, complies with Federal and State requirements that are legally applicable or relevant and appropriate to the remedial action and is cost effective.

EPA appreciates the coordination efforts of NAS Pensacola and the level of effort that was put forth in the documents leading to this decision. **EPA** looks forward to continuing the exemplary working relationship with **NAS** Pensacola and Southern Division Naval Facilities Engineering Command as we move toward final cleanup of the **NPL** site.

Sincerely,

Richard D. Green  
Director  
Waste Management Division
