~~Dear Mr. Hill:~~

Enclosed is a copy of the above-mentioned document. All EPA, FDEP, Navy and other comments received have been incorporated. A written response to comments will not be sent since all comments were verbal. Minor changes were made in the text of the report to clarify the remedial actions, but the majority of the changes were on the figures to give the reader a better visualization of the area remediated, the contamination, and the confirmation results verifying the removals.

Also, as common practice, a copy is being sent by way of Ensafe to the NAS Pensacola Library for the administrative record.

Since the changes are located in various areas of the document, this copy of the document is in its entirety to replace the document previously submitted. It was not necessary to change the cover of the notebook since there were no changes.

If you should have any questions, please feel free to call me at (423) 220-2167.

Sincerely,
