Re: Draft Feasibility Study Report  
Operable Unit 2, NAS Pensacola  
Contract # N62467-89-D-03 181059

Dear Mr. Fugitt:

On behalf of the Navy, EnSafe Inc. is pleased to submit two copies of the Draft Feasibility Study Report for Operable Unit 2 at the Naval Air Station Pensacola in Pensacola, Florida. In an email dated March 30, 1998 from John Mitchell, the former FDEP RPM, the following statement was made.

"The SCGs in the this rule are the ones now in use. It will not effect any RIs which we have already completed. The rule also promulgates cleanup/target levels for groundwater and surface water. Although this rule is specific to Brownsfields, the numbers are still relevant to haz-waste sites and will be the ones I will refer to from now on as PRGs."

In accordance with that email, comparisons are made to the SCTLs in Chapter 62-777. If you should have any questions or need any additional information regarding the document, please **do** not hesitate to call me.

Sincerely,  
EnSafe Inc.

Allison Harris
