

**Naval Air Station Pensacola
Restoration Advisory Board Meeting Minutes
January 25,2000**

1. Call to Order:

The meeting was called to order by Community Co-Chairperson, Mr. Jesse Rigby. The minutes of the May 25th 1999 meeting were reviewed and approved. All members of the RAB were present with the exception of Ms. Lisa Minshew.

2. RAB Member Concerns

Mr. John Early expressed a concern if the recent round of budget cuts would affect the Installation Restoration Program at NAS Pensacola. Mr. Bill Hill of Southern Division stated there even though there have been reductions in funding, the investigation and cleanup projects at NAS Pensacola would still receive sufficient funding.

3. Community Concerns

There were no community concerns expressed.

4. Progress Report

Mr. Bill Hill stated that EPA will be investigating the sediments at Site 2 to further define possible contamination. This information will allow for the most cost-effective remedy to be selected for the site. It is currently scheduled to perform this investigation in March 2000.

The investigation at Site 43 was performed in the fall of 1999. The investigation found 19 buried drums scattered throughout the area. There was no evidence of soil contamination that could be attributed to these drums.

The final Record Of Decision for Site 15 has been submitted to EPA and FDEP and funding has been requested to accomplish the selected alternative.

Natural attenuation was selected as the remedial alternative for Site 38.

5. Barrancas National Cemetery

An effort is currently under way to transfer approximately 80 acres of land immediately west of Site 1 for expansion of the Barrancas National Cemetery. The Veterans Administration will be required to have an environmental assessment of the area.

6. Sample Identification

Ms. Allison Harris of Ensafe gave a presentation describing the system for labeling samples taken at the sites. The numbering system allows for determining where the sample was taken and whether it was a soil or groundwater sample.

The next RAB meeting is scheduled for July 25, 2000.

**Naval Air Station Pensacola
Restoration Advisory Board Meeting**

**Naval Air Station Pensacola, Bldg. 624
Pensacola, Florida
Tuesday, July 25, 2000
