

**Naval Air Station Pensacola
Restoration Advisory Board Meeting Minutes
July 25,2000**

1. Call to Order:

The meeting was called to order by Community Co-Chairperson, Mr. Jesse Rigby. The minutes of the January 25th 2000 meeting were reviewed and approved. All attendees introduced themselves. Each member of the RAB were present with the exception of Ms. Gena Townsend.

2. RAB Member Concerns

Mr. Jesse Rigby asked for the current status of the progress at three sites for which he had received reports since the previous RAB meeting. The first was Bronson Field. Terry Hansen gave a quick overview of sites. There are a total of six sites of which two are currently being investigated; the machine gun butt and fire fighter training area. Initial data suggests no evidence of contamination that would require any remedial action. Two temporary wells had turbid samples that resulted in elevated metals. New wells will be placed in order to obtain a more representative sample. The purpose of investigating the two sites was initiated by a potential land transfer to the Escambia County School Board.

The second site is Bayou Grande (Site 40). Responses from the state are currently being addressed and the team is still pursuing a no further action remedial alternative.

The last site is Site 43. Terry Hansen stated that the data suggests that no contamination exists that could be attributed to the buried drums.

3. Community Concerns

There were no community concerns expressed.

4. Progress Report

Mr. Bill Hill stated that the Site 100 and 102 Site Characterization Report for Bronson Field was distributed in January 2000. The final investigative report for Site 40 was distributed in April 2000. In May 2000, the final feasibility study for Sites 8 and 24 was submitted. All of the wells in the cemetery property will be abandoned. Also, in June, the Site 43 Characterization Report was submitted.

5. Site 2 Presentation

Allison Harris gave a background of the investigation to date. Ms Barbara Albrect gave a presentation on the recent field efforts performed at Site 2.

6. Adjournment:

The meeting was adjourned by consent of the members at 18:30 with the next meeting scheduled for December 5,2000 (Later rescheduled for February 27, 2001).

Minutes approved by:

Mr. Ron Joyner
Navy Co-Chairperson

Mr Jesse Rigby
Community Co-Chairperson
