Dear Mr. Hill:

The U. S. Environmental Protection Agency (EPA) has completed its review of the above subject document, dated April, 2003. Items discussed in previous meetings have been captured in this sampling plan and from the data presented this plan appears to be complete. However, there is one additional clarification that should be added to the report. The "Soil Investigation" Section should describe in more detail the sample analysis and collection procedures for leachability.

If you have any questions please contact me at (404) 562-8538.

Sincerely,

Gena D. Townsend
