Subject: Interim Removal Action Report, Site 8, OU13, NAS, Pensacola, Florida

Dear Mr. Hill:

EPA has reviewed the above referenced document and we offer the following comments.

The excavation was performed to the specified limits. The backfill material was clean as indicated by the included analytical results. The excavations were backfilled and compacted properly so as to allow this area to be re-paved and the work was acceptable to the base public works personnel. Therefore, we accept the report as submitted.

If you have any questions or comments, please contact me in writing or at 404.562.8544.

Sincerely,

Gregory D. Fraley
Senior Remedial Project Manager
