Subject: Final Treatability Study Work Plan for Underground Storage Tank Site 1120, Outlying
Landing Field Bronson, Pensacola, Florida

Dear Mr. Hill:

Tetra Tech NUS is pleased to submit this Final Treatability Study Work Plan, which includes the Health and Safety Plan for Underground Storage Tank (UST) Site 1120 located at Outlying Landing Field (OLF) Bronson, Pensacola, Florida. As indicated below, a copy of this Work Plan has also been forwarded to Mr. Greg Campbell, at the Naval Air Station Pensacola Public Works Center and Ms. Tracie Bolanos at Florida Department of Environmental Protection (FDEP).

Because of the typical extended review period for documents sent to FDEP, TtNUS proposes to begin the work immediately and if comments are received from FDEP to incorporate them into the ongoing field program. You can contact me at (850) 385-9899 or Gerald.Walker@ttnus.com if you have any questions or comments.

Sincerely yours,

A handwritten signature in cursive script that reads "Gerald Walker".

Gerald Walker, P.G.
