MEMORANDUM REGARDING NATIONAL OCEANOGRAPHIC AND ATMOSPHERIC
ADMINISTRATION SITE VISIT SITE 41 NAS PENSACOLA FL
4/23/1997
ENSAFE/ALLEN AND HOSHALL

MEMO

To: Denise Klimas, NOAA
From: Henry H. Beiro and Phillips B. Hardy, EnSafe Inc.
Subject: Reference Wetlands at NAS Pensacola, Florida
Date: April 23, 1997

Dear Ms. Klimas,

We were delighted to be able to host your visit to NAS Pensacola on April 18, 1996. We feel that we accomplished very much towards resolving reference wetland issues for the Site 41 investigation at NAS Pensacola, especially for Wetland 3 near Site 1, and references for estuarine wetlands being investigated. We agree with you that Wetland 75, off of Blue Angel Parkway near the west gate of the NAS, provides a good reference area for Wetland 3. We also agree that Wetland 33, located on Trout Point, is an appropriate reference area for the base's estuarine wetlands. We visited the areas mentioned during your tour of the base, if you recall. The attached map is provided for your reference.

Please do not hesitate to call us at any time concerning the wetlands mentioned, or the Site 41 investigation. Again, it was a pleasure working with you.

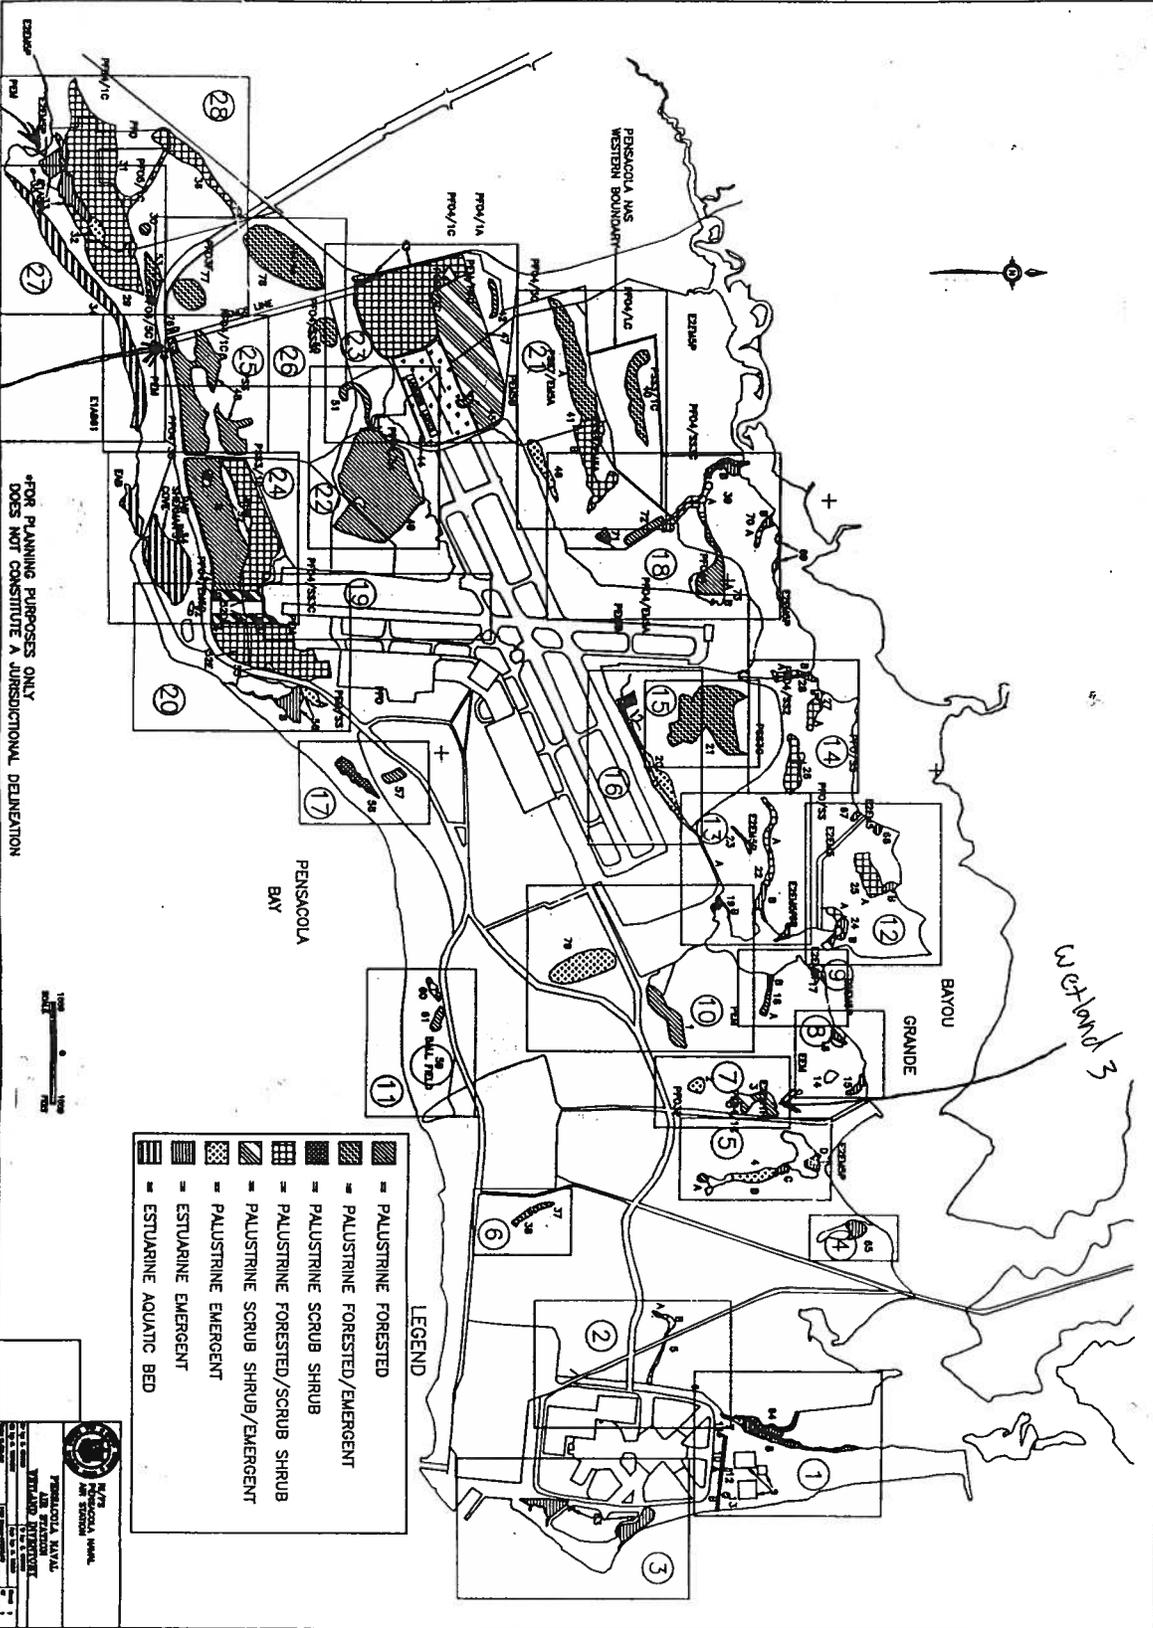

Sincerely,

Phillips B. Hardy for
Henry H. Beiro
