Tallahassee, FL 32399-2400

Dear Mr. Grabka:

SUBJECT: U.S. EPA REVIEW AND COMMENT ON THE NAVY'S DRAFT PROPOSED PLAN
SUBMITTAL FOR OPERABLE UNIT 21, SITE 46 - NAVAL AIR STATION
PENSACOLA, FLORIDA

The Navy submitted our Draft Proposed Plan for Operable Unit 21, Site 46, Former Building 72 at NAS Pensacola, FL to U.S EPA and FDEP on February 14, 2011. Per FFA Primary Document review and comment requirements, FDEP comments on that draft were due to the Navy on or before May 14, 2011; however, we have yet to receive your comments.

The Navy is aware that by letter dated March 17, 2011, EPA Region 4 invoked informal dispute over our draft final Proposed Plan submission for Site 44 and therein proposed that the Team temporarily suspend all FY 2011 Milestones for Operable Units 20 and 21, which would include Site 46. To date, however, there has been no agreement amongst the Team on that issue and Site 46 does not directly fall under the scope of that particular invocation. Thus, the Navy believes that the FFA's consultation procedures including agency review and comment timelines applying to Site 46 should still be adhered to unless and until otherwise agreed to by the Team so that the CERCLA process for those sites can expeditiously proceed.

We look forward to discussing this issue further in our upcoming Team meeting next week. Should you require further details or clarifications in the meantime, please do not hesitate to contact Ms. Patty Marajh-Whittemore at: (904) 542-6202 or by email at: patty.whittemore@navy.mil.

Sincerely,

H. S. LOCKARD, PE
IPT GC Restoration Section Head
By direction of the Commanding Officer
