RE: Response to Florida Department of Environmental Protection Comments on the Draft Site Assessment Report Addendum for Underground Storage Tank Site 2, Naval Air Station Pensacola, Pensacola, Florida.

Dear Ms. Marajh-Whittemore:

I have reviewed the Response to Florida Department of Environmental Protection Comments on the Draft Site Assessment Report Addendum for Underground Storage Tank Site 2, Naval Air Station Pensacola, dated September 20, 2011 (received September 22, 2011), prepared and submitted by Tetra Tech NUS, Inc. The responses to my comments are acceptable and the Site Assessment Report Addendum may be finalized. The proposed work to determine the pH of groundwater in the area where groundwater taken from monitoring wells would indicate that groundwater was highly alkaline is acceptable. Also, the proposed groundwater sampling to determine if groundwater continues to be impacted by petroleum products chemicals of concern in the vicinity of former wells MW-4, MW-15 and MW-41 is likewise acceptable.

If you have any questions regarding this letter, please contact me at (850) 245-8997.

Sincerely,

A handwritten signature in blue ink that reads "David P. Grabka". The signature is fluid and cursive, with a long horizontal line extending to the right.

David P. Grabka, P.G.
