P.O. Box 190010  
North Charleston, South Carolina 29419-9010

**RE: Sampling and Analysis Plan For Remedial Investigation at Site 43, Naval Air Station Pensacola, Florida**

**Dear Mr. Hill:**

The Department has completed the technical review of the above referenced document dated July 2004 (received August 24, 2004) and find the document to be adequate for its intent and approved with the following comment.

1. **Page 3-3, Section 3.2, Subsurface Soil Sampling Plan:** The Department recommends reviewing the latest version of the Global RBCA Rule 62-780, in section 62-780.600(5) (c) 1, which describes how to conduct soil sampling when the remedial approach for the surface soil is proposed to be 95% UCL. To obtain the latest version of this rule go to the following URL address.

<http://www.dep.state.fl.us/waste/categories/wc/pages/ERCAAdoptionHearing020205.htm>

When you are on this page scroll down until you get to the text shown below and click on the "Text of Rule and Table", at this point look for the section given above for soil sampling details required when using 95%UCL.

**Chapter 62-780 Contaminated Site Cleanup Criteria:**

- Text of Rule and Table

If I can be of any further assistance with this matter, please contact me at (850) 245-8998.

Sincerely

Tracie L. Vaught  
Remedial Project Manager
