RE: Work Plan, Remedial Action for Sludge Disposal Area, Underground Storage Tank (UST) Site 22, Naval Air Station Pensacola, Pensacola

Dear Patty:

The Department has reviewed the Work Plan, Remedial Action for Sludge Disposal Area, Underground Storage Tank (UST) Site 22, Naval Air Station Pensacola, dated August 2014 (received by e-mail on August 20, 2014), prepared by AGVIQ, LLC. The designation for proposed new well MW65R should be changed as it is not located in the same location as previous well MW65. Identifying it as a replacement well may cause confusion if analytical results for the new well are compared to the results for the old well. Otherwise, the Work Plan appears acceptable. Please note that depending on the results of the TRPH investigation, the Department may require active remediation of contaminated soils rather than managing the site with land use controls as is presumed in the Work Plan.

If you have any questions regarding this letter, please contact me at (850) 245-8997.

Sincerely,

David P. Grabka, P.G.
