RE: Interim Measures Work Plan, UST Site 24, Naval Air Station Pensacola, Pensacola

Dear Patty:

The Department has reviewed the Interim Measures Work Plan, UST Site 24, Naval Air Station Pensacola, dated January 2014 (received electronically January 14, 2014), prepared by AGVIQ-CH2M HILL Constructors, Inc. Joint Venture III. The proposed interim measures are acceptable to the Department. In accordance with Chapter 62-528, Florida Administrative Code, an Underground Injection Control (UIC) Approval Order has been attached to this letter authorizing the injection of air into the surficial aquifer at UST Site 24 for the purpose of stimulating biological activity in the aquifer in order to enhance the natural attenuation of petroleum contamination. The injection of air shall only be done in accordance with the proposal contained in the Interim Measures Work Plan. Any additional injections into the aquifer will require a separate approval from the Department. I have attached Jeff Lockwood's Professional Engineers Certification of Approval to this letter.

If you have any questions regarding this letter, please contact me at (850) 245-8997.

Sincerely,

Subject: UIC Approval Order
Underground Storage Tank (UST) Site 24
Former Sherman Field Fuel Farm
Naval Air Station Pensacola
Pensacola, Escambia County
Discharge date: 1983

Dear Mr. Neimes:

The Waste Cleanup Program has reviewed the Interim Measures Work Plan for UST Site 24 dated January 2014 (received electronically January 14, 2014; Professional Engineer Certification received April 16, 2014), prepared by AGVIQ-CH2M HILL Constructors, Inc. Joint Venture III, for the petroleum product discharge referenced above. The Florida Department of Environmental Protection (the Department) approves the document as described in this Approval Order (Order). Since the proposed action involves injection into an aquifer, the criteria for Class V, Group 4 aquifer remediation wells set forth in Chapter 62-528, Florida Administrative Code (F.A.C.), apply, as well as the minimum criteria for groundwater set forth in Chapters 62-520 and 62-777, F.A.C., and the general provisions for groundwater permitting and monitoring in Chapter 62-522, F.A.C.

Legal Issues

The Department's Order shall become final unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, Florida Statutes (F.S.), within 21 days of receipt of this Order. The procedures for petitioning for an administrative hearing are set forth below.

Persons affected by this Order have the following options:

- (A) If you choose to accept the Department's decision regarding the Interim Measures Work Plan you do not have to do anything. This Order is final and effective on the date filed with the Clerk of the Department, which is indicated on the last page of this Order.
- (B) If you choose to challenge the decision, you may do the following:
- (1) File a request for an extension of time to file a petition for an administrative hearing with the Department's Agency Clerk in the Office of General Counsel within 21 days of receipt of this Order; such a request should be made if you wish to meet with the Department in an attempt to informally resolve any disputes without first filing a petition for an administrative hearing; or
 - (2) File a petition for an administrative hearing with the Department's Agency Clerk in the Office of General Counsel within 21 days of receipt of this Order.

Please be advised that mediation of this decision pursuant to Section 120.573, F.S., is not available.

How to Request an Extension of Time to File a Petition for an Administrative Hearing

For good cause shown, pursuant to Subsection 62-110.106(4), F.A.C., the Department may grant a request for an extension of time to file a petition for an administrative hearing. Such a request must be filed (received) by the Department's Agency Clerk in the Office of General Counsel at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida, 32399-3000, within 21 days of receipt of this Order. Petitioner, if different from Mr. William Neimes, Naval Facilities Engineering Command Southeast, shall mail a copy of the request to Mr. William Neimes, Naval Facilities Engineering Command Southeast, at the time of filing. Timely filing a request for an extension of time tolls the time period within which a petition for an administrative hearing must be made.

The petition must contain the information set forth below and must be filed (received) by the Department's Agency Clerk in the Office of General Counsel at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida, 32399-3000, within 21 days of receipt of this Order. Mr. William Neimes, Naval Facilities Engineering Command Southeast, at the time of filing. Failure to file a petition within this time period shall waive the right of anyone who may request an administrative hearing under Sections 120.569 and 120.57, F.S.

Pursuant to Subsection 120.569(2), F.S. and Rule 28-106.201, F.A.C., a petition for an administrative hearing shall contain the following information:

- (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the Department to take with respect to the Department's action or proposed action.

This Order is final and effective on the date filed with the Clerk of the Department, which is indicated on the last page of this Order. Former Sherman Field Fuel Farm
Naval Air Station Pensacola, Escambia County

In my professional judgment, the above-referenced Remedial Action Plan dated January 2014 (received electronically January 14, 2014), provides reasonable assurance of reducing applicable pollutants that may be potentially harmful or injurious to human health or welfare and animal or plant life in accordance with state requirements described in Chapter 376, F.S. Mr. Hector Hernandez, Florida Registered Professional Engineer No. 68237, of CH2M HILL, Inc., is the engineer of record for this project.

I have not evaluated and do not certify aspects of this plan that are outside the limits of my review responsibilities and outside of my area of expertise, including but not limited to electrical, mechanical, and structural features.
