RE: DECEMBER, 1997 MONTHLY OPERATION AND MAINTENANCE REPORT ON THE DOMESTIC WASTEWATER TREATMENT PLANT (DWTP) GROUND-WATER REMEDIATION; NAVAL AIR STATION (NAS) PENSACOLA, FLORIDA, (JOB # NAV0303.FE)

Dear Sir:

HRP/Spectrum is pleased to submit the December 1997 monthly report for the operation and maintenance activities conducted on the DWTP Ground Water Treatment System for the above referenced project. The attached Table 1 contains a summary of the recovery well pumping data for the month of December 1997 and Attachment "A" contains time series graphs of the calculated bi-weekly pump flow rates and measured well water levels to facilitate evaluation of the performance and maintenance requirements of the recovery wells and pumps. In addition, four (4) copies of the report have been sent to Mr. Tom Kelley, Naval Public Works Center and two (2) copies to Commander, Naval Air Station, Environmental Division, Attention: Mr. Bill Taylor. *HRP/Spectrum* has the following comments for the month of December:

RECOVERY WELL SYSTEM OPERATION STATUS

RW 1,2&3

- On December 9, 1997 Pump B for RW's 1, 2, & 3 was in operation. The pumps and wells appeared to be in good condition producing normal pressure and flow. No leaks were observed.
- On December 18, 1997 Pump B for RW's 1, 2, & 3 was in operation. The pumps and well appeared to be in good condition producing normal pressure and flow. No leaks were observed or detected.

RW 4&6

- On December 9, 1997 Pump A for RW's 4 & 6 was operating sufficiently with normal pressure and flow. No leaks were detected at either of the recovery wells or pumps.
- On December 18, 1997 Pump A for RW's 4 & 6 was operating sufficiently with normal pressure and flow. Upon departure, no leaks were detected at either of the recovery wells or pumps.

RW 5A

- On December 9, 1997 Pump B of RW 5A was operating sufficiently with normal pressure and flow. No leaks were detected at either the recovery well or pumps.
- On December 18, 1997, Pump B of RW 5A was operating sufficiently with normal pressure and flow. Upon departure, no leaks were detected at either the recovery well or pumps.

RW 7

- On December 9, 1997 Pump A for RW's 7 appeared to be working properly producing normal pressure and flow. No leaks were detected in either the pumps or well.
- On December 18, 1997 Pump A for RW's 7 appeared to be working properly producing normal pressure and flow. No leaks were detected in either the pumps or well.

PRE-TREATMENT AIR STRIPPER

- On December 9, 1997 the Air Stripper was operating properly. No leaks were detected.
- On December 18, 1997 the Air Stripper was operating properly. No leaks were detected.

If you have any questions regarding this report or other matters pertaining to this project, please contact me. at (864) 298-0231.

Sincerely,

HRP/Spectrum

Anthony L. Gentry
Project Engineer
