Madeline,

Attached are 3 emails I recently received from Bonnie Capito, LANTDIV Librarian, that I wanted to forward to you for your information regarding her present ongoing efforts to update the Roosevelt Roads IR Administrative Record and the procedures if the local officials/library refuse to take the Record, as we discussed during our meeting on 4 April at your office. I am presently providing Bonnie my Roosevelt Roads IR files, a few at a time, for her use to examine and extract all pertinent letters, correspondence, etc. She then plans to get copies made of these documents, catalog them and get them into the Record. Reports will be handled in a similar fashion. Please note that Bonnie is planning to be back in Puerto Rico at Sabana Seca and Roosevelt Roads around mid-May and would like to sit down with you for a meeting then to discuss her progress with the update. I will let you know more specifics on Bonnie's planned visit as they become known. As Bonnie discusses in her emails, she can pick up your additional documents at this time. Please give me or Bonnie, 322-4785, a call if you have any questions on this one. Thanks, Art
