Contract Task Order (CTO) 0099
U.S. Naval Station Roosevelt Roads (NSRR), Puerto Rico
RCRA/HSWA Permit No. PR2170027203
Draft Corrective Measures Study (CMS) Final Report for SWMU 53
Draft CMS Investigation Report for SWMU 53
Final RCRA Facility Investigation Report SWMUs 53 and 54

Dear Mr. Everett:

Baker Environmental, Inc. (Baker), on behalf of the Navy, is providing you with two copies of the Draft CMS Final Report for SWMU 53. The Draft CMS Investigation Report is found within Appendix A of the Draft CMS Final Report, but separately bound for ease of review. These two documents are being submitted in accordance with the EPA approved Draft RCRA Facility Investigation (RFI) Report dated July 17, 2002. The EPA gave the Navy contingent approval on the RFI report in their comment letter dated September 19, 2002, based on the Navy delineating the chlordane and heptachlor epoxide contamination in the soils as part of the CMS. This letter contained the official notification that a CMS was required for SWMU 53.

Also included with the submission of the two documents mentioned above, are the replacement covers, spines, and title pages for the Final RCRA Facility Investigation Report for SWMUs 53 and 54. These replacements are being provided in response to the EPA's approval of the Draft RCRA Facility Investigation Report dated July 17, 2002 in their comment letter dated September 19, 2002. Please replace the Draft RCRA Facility Investigation Report cover with the Final RCRA Facility Investigation Report cover, spine, and title page provided.

ChallengeUs.

Baker

Mr. Adolph Everett, P.E.
